PAUL SLEIGH

0407 468 244 / paul@huoncs.com.au

OBJECTIVE

To use my IT and programming experience in full- or part-time capacity, either in contract or permanent employment in Hobart or the Huon Valley. Alternatively, I can work remotely anywhere in Australia.

SKILLS

Web programming in **PHP7/8**, **HTML/CSS**, **JavaScript/jQuery**, **MySQL**.

WordPress plugin/theme development.

In-home IT support and training in **Windows**, **Android**, some iOS and OS X.

Database development using **MySQL** and some other SQLs.

Application development with Borland/Embarcadero **Delphi**.

Full software development lifecycle experience developing Windows applications and web projects.

EXPERIENCE

DIRECTOR • HUON COMPUTER SOLUTIONS • OCT 2012 TO PRESENT

I provide IT support to my local region, the Huon Valley. I make house calls and fix problems with computers, phones, printers, internet connections and other devices including televisions. I have several dozen regular customers and get most of my new customers via referrals and recommendations from existing ones.

I also do web and software development for local and remote clients, working in WordPress, Delphi, HTML/CSS/jQuery and various other systems

WEB DEVELOPER • MTS.AUTO (FORMERLY MYTYRESITE) • JUL 2020 TO PRESENT

I am employed as a web developer implementing web sites, providing technical support and maintaining active sites using PHP 7 and 8, MySQL, HTML, CSS (including SASS), bash shell script, git and some AWS.

CONTRACT WORK • VARIOUS CLIENTS • 2010-PRESENT

I've worked with numerous companies in short-range emergency projects during crunch time when an experienced programmer as required.

THE WILDERNESS SOCIETY • DEC 2015 – NOV 2017

I was the primary web developer and Linux system administrator at The Wilderness Society, working with Windows, Linux, Drupal, WordPress, PHP, HTML/CSS, jQuery and the BBIS customer relationship management system.

REFEREES

Available upon request.
